

THE NEW ORECK XL®

PLATINUM PILOT™ WITH 360° Glide

Re-designed from the bottom up for easy steering and greater maneuverability. Turn right. Turn left. Turn like never before with 360° Glide steering to clean in corners and along the contours of walls and furniture in one easy continuous motion. And do it while cleaning with the Platinum Pilot's 102 mph hurricane force winds which are generated between the floor and just two inches into the vacuum. Plus, a re-engineered roller brush further increases performance with better cleaning on deeply embedded dirt.

THE NEW ORECK XL® PLATINUM PILOT™:

- At about 10 pounds*, it's incredibly lightweight and amazingly powerful.
- Unique pivot connection to the power head means you can corner and turn like never before.
- Powerful pile-lifting roller brush has been re-engineered for better cleaning on deeply embedded dirt.
- Direct Suction technology places a 102 mph hurricane force wind between the floor and two inches into the Upright.
- Hypo-allergenic HEPA filtration traps up to 99.9% of particles down to 0.3 microns.
- Microban®, an antimicrobial agent, inhibits the growth of bacteria, mold and mildew on key touch points of the vacuum even when the vacuum is turned off.
- Two speeds: high speed cleans deep pile carpet while low speed is gentle enough to clean Oriental and Persian rugs.
- Self-adjusts its cleaning height between surfaces.
- Microsweep® allows you to pick up sand on a bare floor.
- Ergonomic Helping Hand® Handle helps relieve the stress on your wrist, arm and elbow.
- Low profile design for vacuuming under furniture. While soft outer bag helps protect furniture.
- Advanced sound-dampening technology makes it Oreck's quietest Upright.
- Twin LED lights provide high intensity, white light that never need replacing.
- Great new contemporary look.
- 10-year warranty.^
- 10 FREE annual tune-ups.

* approximate weight without cord.

^Some limitations apply. For details, see warranty in owner's manual at www.oreck.com.
