

Oreck ProShield® Plus

## It's Time to Clear the Air.

And now there's a powerful, portable, proactive way to help do it.

The EPA says indoor air may be 5 times more polluted than the air outside. The Oreck ProShield® Plus Air Purifier is an easy, portable, proactive way to help capture pet dander, dust and other allergens from the air that passes through the filter. Plus, it also reduces odors and volatile organic compounds from the air that passes through the permanent Helios Shield™ filter.

Every time you close your front door, you're sealing yourself in with airborne dust and allergens. Some you can smell. Most you can't. The Oreck ProShield® Plus constantly moves the air, drawing in and trapping particulates.<sup>4</sup> The powerful filtration captures pet dander, dust and other allergens from the air passing through the filter.

**Contemporary styling. Advanced engineering. Compact design. Complete portability.**

The secret to the ProShield® Plus' powerful performance is Oreck's exclusive Truman Cell® filtration system. As the air passes through the filter, Oreck's patented Truman Cell® electronically charges dust and allergens and pulls them out like a magnet; then, the permanent Helios Shield™ filter reduces common household odors releasing cleaner, fresher smelling air.

**Quiet<sup>1</sup> and easy to use**

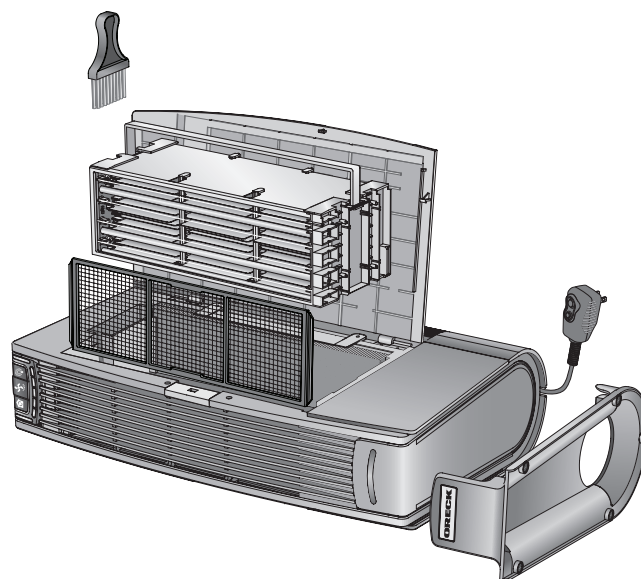

The ProShield Plus air purifier features easy-to-use controls and offers three different speed settings—high for maximum cleaning, medium for normal use and low for quietest operation. The Truman Cell® permanent filter never needs to be replaced—which saves you money and reduces waste. Simply rinse clean the filter, let dry and re-insert.

**Top Features:**

- Recommended for use in an 8' x 10' room.<sup>3</sup>
- The Truman Cell® captures allergens from the air that passes through the filter.
- The Helios Shield™ permanent filter reduces household odors from the air passing through it.
- Lays flat horizontally or on its side vertically; fits in tight spaces. Compact and portable; moves easily from room to room.
- Three speed settings, including Silence Technology®<sup>1</sup>.
- 3-year limited warranty.<sup>2</sup>

Disclaimers:

1. On low speed setting.
2. Some limitations apply. For details, see warranty in product user guide.
3. Based on 8' ceiling, high setting and ANSI/AHAM AC-1.
4. Air circulation does not guarantee all air in a room will pass through the filter.
